

## ARMTech 2009

Written by The Office of the Commissioners  
Friday, 18 September 2009 13:44

---

Armstrong County was host to the eleventh annual ARMTech showcase at the Belmont Complex. The two day event offers businesses the opportunity to network and display their capabilities. The exhibitors had time to interact with each other on Thursday afternoon. Thursday evening was the traditional public showcase, with nearly 600 visitors who enjoyed the chance to view the booths, learn about existing technology and industry in the county and collect logo imprinted items and samples of products.

Friday morning marked the arrival of Congressman Murtha. He attended the showcase and spent time with each exhibitor individually. The event is held annually in mid August; please monitor the Armstrong County website for next year's event dates. You won't want to miss it!
