### Armstrong County Announces new dental discount card program for residents

County Commissioners announced that Armstrong County is one of 38 counties nationwide to be selected as a participant in a dental discount program. The program is administered by **Careington International Corporation** in partnership with the National Association of Counties (NACo).

The NACo Dental Discount Card Program, a NACo member benefit program, was designed to help uninsured and underinsured county residents save money on their dental service expenses.

Through a partnership with **Careington International Corporation**, this simple discount card can help residents save an average of 5 to 50 percent on their dental care services, and 20 percent on orthodontic services. This affordable plan starts at \$6.95 per month and \$59 per year for individuals.

“The card is easy to use and will save people money,” said the Armstrong County Board of Commissioners. With this discount card, residents of NACo member counties will experience significant savings on dental cleanings, x-rays, braces, dentures, crowns, root canals and more.

“Especially during these tough times, NACo is pleased to provide this discount dental program to our member counties,” said NACo President Glen Whitley, of Tarrant County, Texas. “This program is the latest of many valuable benefits that our association provides to our member counties.”

The NACo Dental Discount Card Program is designed to complement health insurance plans or work in conjunction with health savings accounts, flexible spending accounts and health reimbursement arrangements. It is also a cost-effective way for younger retirees to meet their dental needs.
