

RIDING TO FIGHT KIDS' CANCER

Manorville Rider Participates in eighth Great Cycle Challenge USA

Joel Warren will ride 500 miles during month of September in support of Children's Cancer Research Fund.

MANORVILLE, PA - September 2, 2022 - Joel Warren, a resident of Manorville, is planning to ride 500 miles and raise \$500 during the month of September for Children's Cancer Research Fund (CCRF) in support of its 8th annual Great Cycle Challenge USA.

Founded in 2015, Great Cycle Challenge USA has grown to become one of the biggest cycling events in the country. In just seven years, over 440,000 riders from 50 states have ridden 29.7 million miles, raising more than \$52 million for research and the development of better treatments and cures for childhood cancer. This year, CCRF hopes over 60,000 riders will help raise more than \$10 million.

"Over 15,000 American children are diagnosed with cancer every year and, sadly, 38 children die every week," said Daniel Gummit, Chief Executive Officer at Children's Cancer Research Fund. "Thanks to riders like Joel, we're fueling groundbreaking research to save lives and give kids the brighter future they deserve."

"This is the eighth time I have participated in Great Cycle Challenge," said Joel Warren. "During those years, I rode 12,361 miles and raised \$3,491.41. This year, I am aiming to raise \$500 and ride 500 miles."

Funds go to support research at leading pediatric cancer centers across America.

About Children's Cancer Research Fund: Children's Cancer Research Fund invests in groundbreaking research that is leading to better treatments and cures for children with cancer. CCRF also funds vital family support services and advocates for childhood cancer education and awareness. Since 1981, CCRF donors have helped fund research that has revolutionized the way childhood cancer is treated worldwide.
